

ENVIRONMENTAL POLICY STATEMENT

G.T Coulson Fabrication Ltd specialises in the manufacture and installation of Architectural Metalwork and Structural Steelwork.

G.T. Coulson Fabrication Ltd is committed to minimising its negative and maximising its positive impact on the environment. It has created an environmental management framework which has set environmental objectives and targets. These will be reviewed at a minimum annually and are subject to continual improvement. In the course of its operations, the company will:

- Comply with applicable environmental legislation and other requirements that relate to our business.
- Seek designs, services and material that do not harm the environment,
- Measure and minimise relevant and significant environmental pollution including carbon emissions and waste.
- Commit to the continuing improvement of our EMS
- Work with key suppliers and customers to encourage them to improve their environmental performance.
- Communicate this system to all employees and, as requested, customers and the general public.

Implementation and monitoring of this policy, together with raising general awareness to our employees, is the responsibility of Board Director Mr Andrew Coulson. The success of this policy rests with the commitment of all employees to ensure that our management procedures are effectively carried out.

This policy will be reviewed annually and any significant changes will be communicated to all those concerned in the most appropriate manner which may include meetings, bulletins and noticeboards.
